

## MSP Rap Song Lyrics

Saving water, bottles and cans  
That's what I do, that's part of my plan.  
To make this world a better place,  
We all gotta help the human race.

Animals, plants, habitats too  
That's what I save, how about you.  
Changing habits we used in the past,  
Will make this planet last and last.

Respecting the Earth, that's totally cool  
That's what I do, that's how I roll.

Peace out!
