

Portulacaria afra

also known as **Elephant Food**

Plant Care instructions:

1. Water lightly once a week for 4 weeks.
2. Plant entire pot into ground in a sunny area. The pot is made of recycled paper and vitamins for your plant.
3. From this point only water once a month.

Your plant is a drought tolerant plant, so it does not need much water.

Happy Gardening!

Love,
Ms. Smarty-Plants™
