The curriculum meets California State Standards and is in line with NGSS, California State Standards, E-STEM and Common Core. During the field trip students engage in fun activities to discover plant adaptations, understand the water cycle, and water supply in our region, and learn ways to conserve our most precious resource: Water. Please no siblings or strollers, as parent chaperones will be asked to assist with fun activities.

What do we do if we need to cancel?

If you need to cancel for any reason, 48 hours notice is required by contacting Education@thegarden.org. One date change is permitted, but it is highly recommended to keep the original booking date. If 48 hours notice of cancellation is not given, the deposit will not be refunded. If you are receiving a grant from us and cancel without giving 48 hours notice, your school may be excluded from future grant sponsorship.

Can we take photos?

We would love for you to take photos, but your class must sign the [Mandatory Photo Waiver](#) form.

Please share photos on social media with The Garden!

Our education team will be taking photos. Please sticker the students prior to the field trip who can not be photographed.

Do you have a cell phone policy?

Yes! Chaperones and teachers please limit your cell phone use to taking photographs only.

Rain Policy & Extreme Heat

We enjoy a little drizzle and giving field trips in the rain, so don't let a little mist scare you. Just make sure your students are well equipped with rainy day attire (jacket/raincoat, closed toed shoes, hats, etc). Our educators will call the teacher the day before to discuss if the weather is questionable. We will then contact the teacher the morning of the field trip by 7:30am, if it is necessary to cancel due to weather (including excessive heat). Email Education@thegarden.org or call our Director of Garden Operations Lauren Magnuson, 828-719-6869.

See you soon!!!
